Introduction

This document contains the necessary information to manage and deliver the demonstration of Alcatel-Lucent Enterprise's *OmniVista 2500* Network Management System and to connect to the demo infrastructure.

All information is subject to change as and when the demos are expanded and additional demos put in place. Please check with the content owner (contact details at end of this document) if in doubt, and for the latest version.

It is imperative that under **no circumstances** should you modify any of the configurations applied on any element of the platform. Indeed, as this demo is open to any System Engineer that requests access, we must preserve the present configuration so that all users will be able to use the demonstration script as written.

If this is your first OmniVista 2500 remote demo (eDemo), it is strongly recommended that you familiarize yourself with the entire demo process. This means connecting to the demo platform and completing the demo script in its entirety before executing a customer facing demonstration.

Please feel free to send any ideas of improvements to the central team (contact details at end of this document).

How to obtain access to the Demo?

Access is via a standard HTTPS connection. This connection is password protect – your unique login is sent at the moment you reserve the demo.

The process for access is as follows:

1. When on the eDemo *OmniVista 2500* dedicated booking web page (http://edemo.al-mydemo.com/?page_id=1708):
 - fill in the required fields (marked with an *)
 - the calendar can help selecting the wished demo timeslot
 - a 5 working days delay shall be considered
 - “Email” and “ALE email contact” information may be the same if the demo is requested by an ALE employee, or different if the demo is requested by a non ALE employee.
 - The “Zone” in which the demo will be run (EMEA, APAC, NAR, CALA) is needed to allocate the relevant support for the demonstration
 - Click on the “Submit” button

OV2500 booking

When do you want to play the demo (use the calendar on the right)...

Demo date * Start Time *

Duration * Timezone

In which region the demo will be run?

Please, introduce yourself...

First Name * Last Name *

Email * Phone *

Who is your contact at Alcatel-Lucent Enterprise (your email if you are from ALE)

ALE email contact *

Enter your Sales force id (if you have one)

Is the sun hot or cold ? *

Field: marked with an * are required.

Please book your demo 5 working days (Mon-Fri) in advance

< > today Mar 7 — 13, 2016 month week day

	Mon 7	Tue 8	Wed 9	Thu 10	Fri 11	Sat 12	Sun 13
all-day							
11am							
12pm							
1pm							
2pm							
3pm							
4pm							
5pm							
6pm							

2. When the demonstration request is approved, you receive a mail confirming the demonstration availability for the wished timeslot. The mail also includes a web URL and an associated login/password (available for the requested timeslot only) that will allow access (the password is hidden in below picture):

From: eDemo [mailto:edemo-support@al-mydemo.com]
Sent: mercredi 28 septembre 2016 10:08
To: Bekka Ahmed
Subject: OV 2500 demo approved without support

Hi Ahmed,

Your demo request for OV 2500 from 2016-09-28 09:00:00 to 2016-09-28 18:00:00 has been approved!

Details for connection:

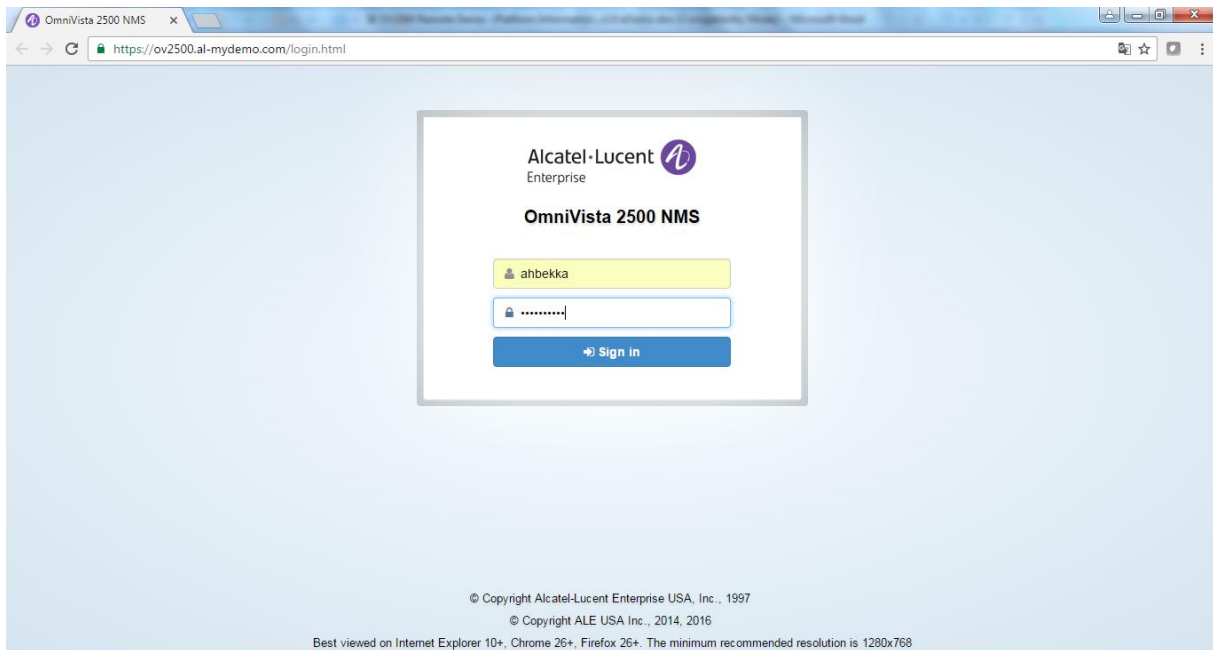

- Web server: <https://ov2500.al-mydemo.com/>
- Login: ahbekka
- Password: *****|
- Domain: ebs

When you book a customer facing demo and if it is the first time you will do the demo, it is strongly recommended you book an additional and prior demo training timeslot in order to validate that you are able to:

- connect to the demo platform (based on the Platform Information document)
- do the demo and deliver associated key message (based on the Demo Script document)

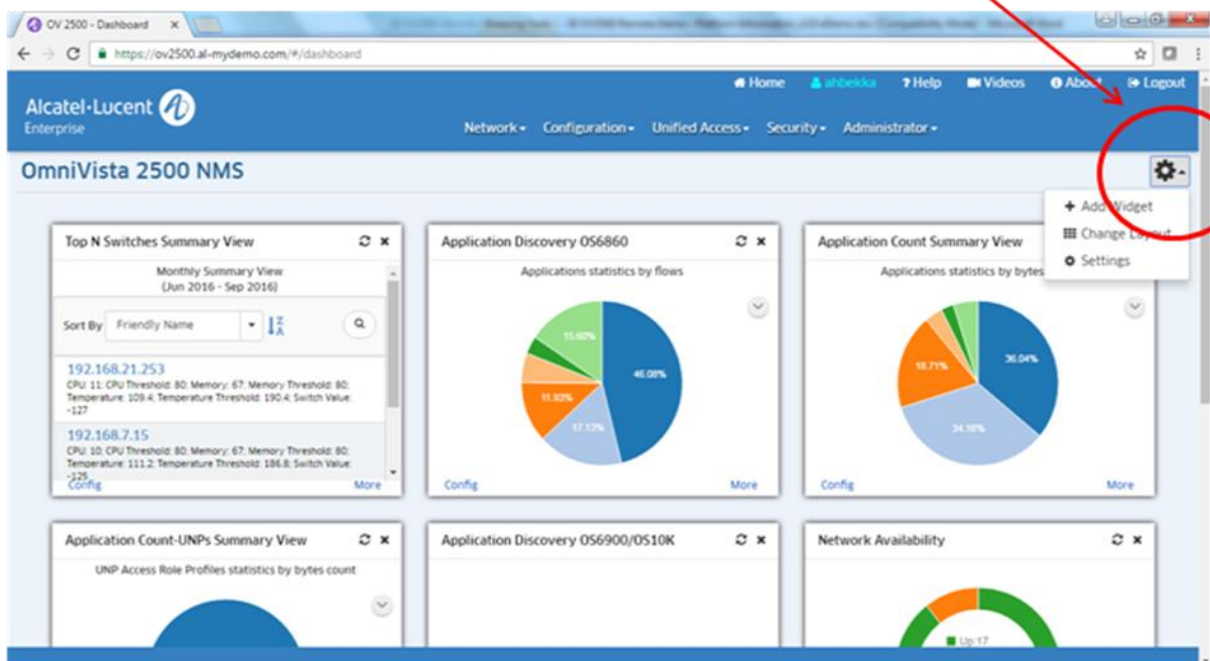

✓ Click on the URL <https://ov2500.al-mydemo.com/>:

3. You will then see the login page of the OmniVista 2500 server. Authenticate with the login and password that have been communicated to you, and sign in:

4. Enjoy your demo !

Use this button to add widgets,
customize your dashboard...

Conclusion

You are now ready to start the OmniVista 2500 SE Remote Demo Script document.

Good luck and have fun!
